

About Us

Andron are one of the leading providers of fully integrated facilities management, with an exhaustive list of services including cleaning, security, consumable supply and specialist services such as pest control and waste management.

We have steadily expanded, setting up offices in key locations such as London, Manchester, Glasgow and Aberdeen, allowing for complete and distributed coverage to the entire U.K. The benefits of which are exemplified in our extensive national contracts.

Our Company prides itself on our adaptability and professionalism to supply services to blue chip companies in a variety of sectors including oil & gas facilities, financial institutions, commercial offices & complexes, leisure centres, educational facilities and over 30 major retail centres. Our success is attributed to our ability to provide best in class multi-services to both national clients and single sited companies across the entire UK.
